**SMOOTHER PAVING**

**BIGGER SAVINGS**

**ROAD MAINTENANCE SAVINGS**

Smooth roads can result in a nearly 8% increase in pavement life.1

Nearly 8 of 10 drivers don’t mind periodic maintenance delays in return for a smoother road surface.2

Smooth, well-maintained roads are safer roads. As roughness increases, the accident rate increases as much as 9.5%.3

A 1/10 of a mile increase in pavement smoothness could result in up to $7.5 billion in maintenance and repair cost savings and $340 billion annually in the U.S.4

In tire wear cost savings, annually in the U.S.5
